Dalton's SARSAPARILLA AND NERVE TONIC

DALTON'S SARSAPARILLA is prepared by a regular physician from choice extracts combined with standard alteratives, nerves and aromatics. A powerful alterative and tonic, it purifies and enriches the blood by stimulating the excretory and secretory organs to healthy action. It cures all blood diseases, from which arise Scrofula, Erysipelas, Boils, Pimples, Ulcers, Sores, Salt Rheum and Skin Diseases. It positively cures diseases of the Stomach, Liver and Kidneys, Sick Headache, Loss of Appetite, Indigestion, Jaundice, General Debility, Tired Feelings, Constipation, etc., also Loss of Memory, Nervous Debility and Prostration, St. Vitus' Dance, Impotency, Sleeplessness, Incontinence of Urine and Female Complaints. For Rheumatism, Heart Disease, and Catarrh, we challenge the world for its equal.

By strengthening every organ in the body it puts the system in condition to resist attacks of all acute diseases. The merits of this remedy have been established by twenty years' use. Its standard for purity and excellence will be maintained. It is not only a good spring medicine but a good all-the-year-round remedy. Sold by druggists and dealers.

MAINE FISH.

Gathering of the Commissioners of the United States.

In conjunction with the World's Fair at Chicago, there will be held a convention of those interested in fish and fisheries. It is proposed during the convention to hold a conference of the Fish and Game Commissioners of the United States. E. A. Brackett, of the Massachusetts Fish and Game Commission, has been selected as chairman, and E. W. Gould of the Maine Commission, secretary. The following circular letter sent out by the United States Commission inaugurated the gathering of the clans:

In compliance with the request of the Commissioners of Fisheries of the New England states, I have the honor to invite you to a conference of the United States and State Commissioners to be held at Chicago on the 18th of October, 1893. This date is fixed by reason of the fact that the World's Congress of the Fisheries will then be in session, and the Commissioners will have the opportunity of also attending the sessions of this body and participating in the proceedings. It is desirable that topics which are to be brought up for discussion at the conference should be announced in advance, so that those desiring to participate in the discussions may have the opportunity for due consideration and preparation.

I shall be glad to have you indicate topics appropriate for discussion, sending the same to E. A. Brackett, Commissioner of Fisheries for Massachusetts at Winchester, Mass., whom I have requested to act as chairman of the committee of organization of the conference associating with him such other members of the State Commissions as he may find most expedient.

Prof. Francis H. Herrick who occupies the chair of biology in Adelbert College, Cleveland, Ohio, recently visited Dr. Gould, Commissioner of Sea and Shore Fisheries at Thomaston, his object being to obtain data and knowledge of the habits of the lobster. Prof. Herrick has been for the past few years during the summer vacation months in charge of that branch of investigation of the embryology of Maine's most valuable lobster (Homarus americanus) all phenomena observed in the life history of the lobster.

GREEN'S LANDING.

Business prospects are very poor here,
but we have a good number of can-
vassers and peddlers who are ready to
supply every want.

Mr. Harrington and Miss Mullens
have been having a musical convention
about 25 joined the class. The con-
cert given by them last week at the
church was a great musical treat.

Messrs. Shute and Briggs, the
artesian well drillers, are in town look-
ing up contracts. They have just com-
pleted a well at Black Island, 74 1/2
feet deep. Capt. Seth Webb of So-
Deer Isle is expecting to have one sunk
on his premises.

Rev. Wesley Haskell of Boston Uni-
versity, who has been visiting his
brother, the Methodist pastor, called
together a large congregation at Music
Hall last week and, by working as very
few can do, he got a collection of more
than \$100 towards the Methodist Church,
so that the building will probably go up
in a short time. Every one who heard
him pronounced him "smart as a whip,"
so to speak, and certainly the collection
gave evidence of this.

We have only one case of typhoid
fever, that being in the western part of
the village. Every one who has poor
water begins to think about it. The
artesian well at Ocean View is doing a
good business, although no one except
Capt. Chas. Babbidge has had the pipes
to lead it to the house. It is supposed
to yield 108 hogheads per day. It is
warranted to be pure spring water. The
well is 67 feet deep. Three feet from
the top is earth, the remaining distance
being solid rock, so that no surface
water can run in. A wind mill costing
\$935, is built over it with a tank holding
25 hogheads. About fifteen families
are supplied as regular customers and
probably as many more who happen to
come, of which no charge is made.
Another year an arrangement will be
made to supply quite a number of
families.

Order of the Eastern Star.

The first annual meeting of the Grand
Chapter of Maine, Order of Eastern Star, was
held with Mizpah Chapter of Westbrook,
Thursday. Representatives were present from
thirteen subordinate chapters. The session
opened with the Worthy Grand Matron Mrs.
Ella M. Day of Rockland in the chair.

The business of the morning consisted of
the reading of the annual address of the
worthy grand matron, and of the worthy
grand patron, Dr. A. H. Burroughs of West-
brook, giving the reports of the grand secretary

A LADY BARBER.

The Gentler Sex the Finest Tonsorial
Artists.

The Best Representation of the Art in
This Community.

Somethings She Has to Say Which
Make Interesting Reading.

If there is anything which a woman is
calculated to do better than a man, it is
in the care of and attention to the hair.
Her natural skill and taste make her pre-
eminently man's superior. This explains
the great popularity of Mrs. C. V. Went-
worth, who stands easily the foremost
tonsorial artist in this country.

Seen at her tonsorial parlors, at 5 Main
Street, Waterville, Maine, she said:

"I am well and strong again now. For
the past two years my health has been so
poor I could not do my work. I could not
walk across the house, in fact. I got so
feeble that the best doctors in this city
said if I went to sleep on my left side I
would never wake again."

"I heard of Dr. Greene's Nervura blood
and nerve remedy and thought I would
try it, and when I had taken one bottle I
was very much better. I have taken four
bottles of this remarkable medicine and
it has done me more good than any medi-
cine I ever took."

"I am now able to do my work and have
gained twenty-five pounds in weight. I
cannot say enough in its praise."

MRS. C. V. WENTWORTH.

The singular thing is that all the doc-
tors in the city gave Mrs. Wentworth up
as incurable, saying that she could not
possibly live. Now that they have seen
the wonders performed by this great and
valuable medicine, there is no doubt that
they are prescribing and giving Dr.
Greene's Nervura blood and nerve remedy
for every disease. It certainly cures
more diseases than any other remedy ever
known to man, and is sold by all druggists

recently spent several days among
friends here. Mr. Orne is a native of
Vinalhaven but left here 38 years ago,
and this was his first visit in all that
time. The Vinalhaven of Mr. Orne's

different.

The long delayed yacht race came off
Tuesday afternoon. There was a good
breeze from the southwest, and the dis-

was a very pretty race all through.
The Elate started over the line 34
seconds ahead of the Ethel, and crossed
the line on the return one minute and
three seconds ahead, winning by 29

A new walk is being laid in front of the G. I. Robinson drugstore.

There was quite a phenomenal display of electricity among the trees on Dr. Jameson's place, Saturday evening. A wet line, some inch and a half in diameter, came in contact with the live wire, leading to the prison. This made a ground for the electrical current at the power house and darkness at the prison. At the tree light abandoned. At intervals of about a minute the entire top of the tree would be enveloped in an electric light of 100,000 candle power, and during these times a noise much resembling a steam fog whistle was distinctly heard about the village.

Dinner was served on the yacht and a fine time is reported. The sail was planned for Friday the 8th, but owing to the high wind was postponed until Saturday. Some were unable to go owing to the postponement and others were away from Camden.

The trial trip of the new lighter, built by J. E. Dalley, took place Friday, the 8th. There was a heavy breeze blowing and everything went finely until the chain plate broke and then mast, sail and all went over the side. The violent storm of Saturday has washed the roads badly in this vicinity and made sad havoc with apples, pears and plums.

We very much regret that work has been delayed by the settling of a portion of the railroad at South Union, which necessitates several days work in filling up before the rails can be laid to the Common. It is confidently hoped that the road will be completed and in running order so as to transport passengers to and from the fair. The Track Association has completed its work on the track and has erected a commodious stable for the trotters. They are also building a ball 30x60 feet to be used for the fair exhibit. Mr. Ripley will also have in readiness on the grounds a new building with dining rooms and restaurant, where meals will be served at all hours to the general public. On the whole, everything looks bright and favorable for the best show ever held by the North Knox Society. The fair opens Tuesday, Sept. 26.

TEMPERANCE QUESTION.

How Matters Stood in Ye Olden Time—Some Vital Statistics.

The Searsport News publishes an abstract from the "Second Annual Report of the Maine Temperance Society for the year 1833." From this abstract we make abstracts:

Camden at that time formed a part of Waldo County. This country had 25 temperance societies. There was one temperance tavern kept by John Bager, Camden. Of the 72 retail liquor dealers in the county Camden had 16. In Camden 3000 gallons of liquor were retailed during the year, while in Hope, which was also in Waldo County, 5000 gallons were retailed; in Searsport the amount retailed was 4000 gallons, and Lincolnville 3300.

The towns of Lincolnville, Palermo and Swanville voted to authorize the granting of licenses for the sale of ardent spirits, to be drank in stores and shops. The towns of Brooks, Camden, Montville and Searsport voted not to grant licenses.

Militia officers treated their soldiers in the towns of Knox, Lincolnville, Palermo, Prospect, Waldo and sometimes Freedom. In Monroe, Frankfort and Searsport they did not.

Ardent spirit or wine was not generally used at social parties in the towns of Brooks, Freedom, Camden, Frankfort, Knox, Monroe, Montville, Palermo, Prospect, Swanville, Waldo and Searsport. In Lincolnville it was less used than formerly; and in general use in Northport.

Mechanics were not furnished with spirit at 11 and 4 o'clock daily in Frankfort, Freedom, Knox, Monroe, Montville, Prospect, Swanville and Searsport; and not generally in Brooks, Camden, Lincolnville, Palermo and Waldo.

FINE NEWS

W. O. Hewett Is Now Back in Rejuvenated Snow Block.

EDNESDAY was opening day for the W. O. Hewett dry goods establishment. It will be remembered that on account of fire this well known firm was obliged to remove to the Spring Street Opera house, where it has been doing business while Snow Block, which the firm vacated, was being put in fine shape for the firm's return. Well, on Wednesday, the doors of the handsome new store were thrown wide open, and immense crowds, all the afternoon, worked their way in and out, admiring the new and commodious quarters and the fine display of goods and load indeed were the praises heard.

Seventeen years ago to a day the dry goods firm of Hewett & Jackson, now W. O. Hewett & Co., moved from Snow Block to Snow Block at the corner of Main and Spring streets. Here they have carried on business ever since, a business that has had a healthy growth and found itself in such cramped confines that a change for more commodious quarters was under serious consideration, when the fire of last May settled the matter by driving the firm into the new building, which was then a ruin, where the water damaged goods were rushed off at great bargains. Meantime the entire building, the upper stories of which have heretofore figured as offices, has been refitted for a dry goods house.

The main floor looks very different to customers from its former appearance, which will be recalled as very crowded. Now with the additional room above the lower floor will be open between counters and there will be great abundance of light. New shelving has been put in, giving a modern tone, and the walls are beautiful under a blue tint paper and border.

At the rear of the store a broad flight of stairs leads to the second story, and this is one of the most attractive parts of the new establishment, light and airy, a hard wood floor, walls to match those below, with ladies' toilet, shelves, drawers, cases, cloak forms and everything to give facility in the transaction of business. This floor will be set apart especially to new departments that the firm are to add, cloaks and ready-made wrappers and house gowns. The southern side of the room will be set apart to the latter, while the front end will be devoted to the cloak department, with ample room and splendid light to render the examining and trying-on of garments in pleasure. Cottons and blankets will also be exhibited on this floor.

The floor above will be used for storage. The entire building is heated by hot water, and new brass chandeliers of handsome pattern light it up nicely. This new store is one of the nicest on Main street.

Mr. Hewett is one of our city's oldest as well as best liked merchants, having been in business here for upwards of 35 years, and he is ably seconded in the conduct of the business by his daughter, Mrs. Frohock, and J. S. W. Burpee, as well as the efficient corps of clerks always to be found behind their counters.

GATHERING CLANS.

Renewal of Old Associations—Family and Regimental Reunions.

The "Head of the Lake" School Association met on Tuesday last at the school-house in District No. 1, Hope. The school-room was tastefully trimmed and decorated with evergreen and vases of beautiful flowers by those who do not wait till after death to pay their tribute of love and friendship, but cheerfully and thoughtfully practice it to the living. The day was beautiful and pleasant and the old teachers, schoolmates and friends filled every available space in the house, and many were obliged to remain outside, nearly 100 being present.

After the usual friendly greetings, and a season of social intercourse, the meeting was called to order by the President, W. J. Robbins, who read a selection from scriptures while E. C. Oxtion offered prayer. Mrs. Charles Wentworth ably presided at the organ, and many selections of music were sung from the "American Vocalist," an old book compiled by the late Rev. D. H. Mansfield of Hope.

An essay on "Woman, Her Power and Influence," was given by Mrs. R. O. Hall, followed by reading by Mrs. F. W. Smith, "The Widow Brown's Christmas."

A poem by T. A. Gushie, "The Women of Maine," was given by Mrs. F. W. Smith, an original poem by Mrs. F. W. Smith, "Our Loved Ones Come," were features of the program, while E. C. Oxtion offered prayer. Mrs. L. Mansfield, Chairman of Committee of Arrangements, Mrs. C. H. Jones, Chairman of Committee of Entertainment, F. W. Smith, Committee on Obituary, Mrs. Olive Wentworth. Voted to meet again the second Tuesday in September, 1894.

Wednesday, Sept. 13, 125 representatives of the Wentworth family met for their 9th annual reunion, at the home of Arthur Wentworth, Hope. The spot is "beautiful for its location," nestling at the foot of Spruce Mountain, but yet sufficiently elevated to command a full view of that beautiful sheet of water known as "The Lake," where swim some of the largest trout and pike that are ever gladdened the heart of sportsman. The day was fine. The time was spent in hand-shaking, social chat, and greeting new comers until noon, when a company of the looking men, women and children, blessed with appetites unsurpassed by men of any name or nation, gathered around long tables under a row of maples and partook of a feast such as epicures delight in. After the physical man had been satisfied at call of the president, S. E. Wentworth, all assembled for a feast for the higher nature, with the following bill of fare: Music by choir; prayer, Rev. P. A. Smith; music; poem, Miss Bertha Keane (original); reading, Mrs. F. W. Smith; music; reading, F. W. Smith; solo, Lillian Wentworth; poem, Mrs. F. W. Smith, original; music; remarks by T. A. Gushie, Rev. P. A. Smith, F. W. Smith, Mrs. F. W. Smith, Mrs. M. A. Sweetland, Fred Packard, Marcus Wentworth, T. J. Gushie, George Gushie and others.

Frank Taylor read a poem composed in honor of the family. The usual humorous remarks were made and officers for the coming year were elected as follows: President, Mrs. M. A. Sweetland; Vice President, Mrs. M. A. Sweetland; Secretary, Mrs. M. A. Sweetland; Treasurer, Mrs. M. A. Sweetland; and a number of others.

Wednesday, Sept. 13, 125 representatives of the Wentworth family met for their 9th annual reunion, at the home of Arthur Wentworth, Hope. The spot is "beautiful for its location," nestling at the foot of Spruce Mountain, but yet sufficiently elevated to command a full view of that beautiful sheet of water known as "The Lake," where swim some of the largest trout and pike that are ever gladdened the heart of sportsman. The day was fine. The time was spent in hand-shaking, social chat, and greeting new comers until noon, when a company of the looking men, women and children, blessed with appetites unsurpassed by men of any name or nation, gathered around long tables under a row of maples and partook of a feast such as epicures delight in. After the physical man had been satisfied at call of the president, S. E. Wentworth, all assembled for a feast for the higher nature, with the following bill of fare: Music by choir; prayer, Rev. P. A. Smith; music; poem, Miss Bertha Keane (original); reading, Mrs. F. W. Smith; music; reading, F. W. Smith; solo, Lillian Wentworth; poem, Mrs. F. W. Smith, original; music; remarks by T. A. Gushie, Rev. P. A. Smith, F. W. Smith, Mrs. F. W. Smith, Mrs. M. A. Sweetland, Fred Packard, Marcus Wentworth, T. J. Gushie, George Gushie and others.

Frank Taylor read a poem composed in honor of the family. The usual humorous remarks were made and officers for the coming year were elected as follows: President, Mrs. M. A. Sweetland; Vice President, Mrs. M. A. Sweetland; Secretary, Mrs. M. A. Sweetland; Treasurer, Mrs. M. A. Sweetland; and a number of others.

Officers were elected for the next year as follows: President, W. J. Robbins; Vice President, T. A. Gushie and F. W. Smith; Secretary and Treasurer, Mrs. E. O. Hall; Chairman of Committee on Arrangements, F. L. Mansfield; Chairman of Committee of Arrangements, Mrs. C. H. Jones; Chairman of Committee of Entertainment, F. W. Smith; Committee on Obituary, Mrs. Olive Wentworth. Voted to meet again the second Tuesday in September, 1894.

Invited guests, strolled about for an hour, renewing old acquaintances and greeting each other with a heartiness known only to those who have been shoulder to shoulder in the midst of the strife, until notified by the sound of the bugle that the clam-hike was awaiting the guests. The response of these men, who were never called upon for any service in vain, was ready and immediate, and under their charge the lobsters, clams, green corn, but coffee and doughnuts, prepared by Comrade T. C. Saunders with his customary skill, were soon things of the past.

The business meeting of the Association was then held in the hall, which was well filled. Called to order by President L. P. Carver, the report of the Secretary and Treasurer were presented, showing a small balance in the treasury, but not sufficient to pay the bills accruing at the present reunion for music, printing, etc. The liberality of Gen. Tilton having disposed of all expenses upon the island. A hearty response was made to a call for a collection and more than the necessary funds to liquidate all liabilities were soon placed in the secretary's hands.

No invitation for another year being extended by the members it was unanimously voted that the reunion be held in Rockland. The following named officers were chosen for the coming year: President, Capt. W. N. Oliver; Vice Presidents, W. H. Simmons and Geo. H. Thomas; Secretary and Treasurer, Robert Anderson.

Company Secretaries—A. Arthur Libby; B. Anderson; C. O. J. Knapp; D. Edw. Hall; E. John Johnson; F. Peter Pederson; G. H. H. Thomas; I. Geo. W. Patterson of Belfast; K. Alden D. Chase of Belfast; L. Battery, John Turner.

Brief addresses were made by the retiring president, Lieutenant Colonel Carver, General Tilton, Col. Walker, Mayor P. C. Knapp, and General J. P. Cilley and Comrade W. H. Simmons, which pleasantly filled the time until the arrival of steamer Bodwell on her return trip from Vinland, and in another hour the boys were again landed upon the wharf in this city, greatly pleased with their excursion.

Col. Walker received many a good word for his series of letters upon the history of the old regiment, now being published in the Rockland Tribune, and it seemed a general desire that he should collate them in book form when completed, which we understand he will do if sufficient encouragement is given to pay the expense of the undertaking. No one was ever paid to write up the deeds of this regiment while in the field, as was the case with many other organizations. Even reports that had been ordered from headquarters were pigeon-holed and never saw public light because they were thought to reflect upon some one in authority. Col. Walker feels upon favors any man, and whatever he writes will bear the stamp of truth, no matter where it comes.

For the honor of the regiment its living and its dead, as well as the information of their relatives and friends found that for purposes should not be lacking in this city where the regiment was organized and four of its companies enlisted.

In the evening a rousing campfire was held in Grand Army Hall with Comrade Harry Simmons as "Chief Sumner," the proceedings of which are, of course, not for the public edification. An invitation, delayed by the non-arrival of Comrade Carver, of Vinland, at an earlier hour, to meet at that town next year, was referred to the officers of the association.

This passed one of the best reunions and the largest one ever held, there being 240 present, including a few ladies and other invited guests.

Company B reported 21 of the original members, some of whom now met their comrades for the first time since muster out of service.

Gen. Tilton received many thanks and the gratitude of all for his kind words of greeting and his generous hospitality.

The Burton family held its annual reunion in Garrison, Groton, on the farm of J. Frank Burton, Sept. 6, where his grandfather, Capt. Benjamin Burton, landed an emigrant colony from Europe in 1736. Three generations still reside near the site where this hardy pioneer built a stone garbison in 1754 for a protection against the Indians, the upper story a dwelling house for his family and a place of resort for the citizens when molested by the savages.

Members of the reunion were plentiful and on route for the World's Fair, Sept. Sunday in town.

An additional interest was given to the gathering this year on the grounds where the stone garbison stood, that had flattered many an Indian boy, by a company of young men and youth, masked, dressed and equipped in 1736, who exemplified the tragedies that had transpired in the past century.

On March 26, 1736, 150 British soldiers made a furious attack upon the fort, attempted to set it on fire, killed two men, and another and left him weltering in his gore. A choir of these events including a picture of the scene in which the young men from Europe, Capt. Burton and his wife, the launching of the stone containing the remains of his father into the ocean, the cart of combustibles on fire, a British soldier showing the fort, an arm chair in which was seated Master Burrows of Union in profile, the 8th generation from the elder Burton, who was buried in the sea, a coat of arms of the Burton Association with the motto, "Defendimus." We defend. This was presented to the reunion by J. J. Burton.

After a picnic dinner of pastry, clam chowder and lobsters the company was called to order by the president, Benjamin Burton of Union. Mr. Hall was given by the organist, Mrs. Albert Robinson and a select choir, an original ode to Colonel Burton, which was sung to the tune America. An interesting lecture was given by Frank Burton Miller, followed by other speakers.

Following are the officers chosen: President, J. F. Burton; Vice President, R. B. Copeland; Secretary and Treasurer, A. P. Burton; Committee of Arrangements, E. B. Burton; Isaac Libby, William J. Burton; Committee on Tables, Lillian M. Moore, Nellie F. Storer, Annie M. Studley. Place of next meeting, Stab Hill, the last Wednesday of August, 1894. The Historical Committee is Mrs. E. P. Harris, J. F. Hall and J. F. Burton.

Many thanks are expressed for two fine cakes presented by Edwin Oscar Leonard of South Warren, made by him self. Embossed on the front of one was "Burton," on the other "Robinson," this being emblematic of the union of the names in the early settlement of George's Valley.

BOSTON LETTER.

Our Weekly Notes From New England's Great Metropolis.

Boston, Sept. 15, 1893.

The following, from Wednesday's Record regarding a gentleman well known in Rockland, as well known here, will bear repetition:

"Sergeant Brickett of Station 2 is the only one of six officers at this station who escaped the last indiscriminate slaughter among the line. The other five he attended the 'Golden Week' held since then he has heard nothing but 'I'm the only one that's left of all the family.' Even the men in front of the station and visible to his benefit."

Geo. T. Tate, a native of Rockland, has just been appointed consul to Barbadoes, W. I. He is 38 years old and was born in Rockland Aug. 28, 1855, but received his education in Newburyport. He is a diligent business at the corner of Lowell and Causeway streets. His appointment has not yet been confirmed and he will probably not leave for Barbadoes for at least a month. Mr. Tate has had some experience in consular work, having been for a short time with Sanchez Bros. at New Orleans, where he was consular agent for the United States and Great Britain.

D. M. Murphy has many friends here, among them James Donovan, the well-known Chairman of the Democratic City Committee, and since the announcement that Mr. Murphy was a candidate for the collectorship it has been understood here that Mr. Donovan would do all in his power to advance Mr. Murphy's interests.

Knox county was well represented here last week. Among the people in town were D. N. Mortland, E. H. Clark, W. S. White, S. H. Webb, S. A. Burpee, E. C. Robinson, Mrs. W. H. Perkins, and Mr. and Mrs. W. G. Thibault of Rockland, N. C. Mehan and J. A. Levesque of Thompson, and S. D. Robinson and F. A. Allen of Union.

Thos. Barker left here last week for a trip South with the intention of locating in Savannah, Ga. A. A. Durham of Belfast accompanied him.

Capt. Frank Watts of Thompson has been in town the past few days. His vessel, the Jennie S. Hall, is lying at East Boston awaiting charter.

Misses Lulu Messer and Mabel Spies, who are en route for the World's Fair, Sept. Sunday in town.
